

Corporate Health Dynamics Street Therapy

The Existence of God

Dear Prospective Team Player:

My name is Oliver Rhodes and I am a man with a passion for living and teaching others how to live a Passionate Life of Adventure and Youthfulness™ (PLAY), playing the biggest game plan in town, hands down. That game plan is Corporate Health Dynamics (CHD) Street Therapy. This game plan is a God inspired, scientific methodology, fully operational with implications for universal application.

As a result of my passion for living a PLAY and teaching others how to do the same, I am reaching out to anyone and everyone who may be interested in taking part in the greatest secret seldom told. That secret is that the power of God exists in each and every one of us and He presents Himself to us in the spirit of PLAY. This is a discovery, and PLAY Revolution, that will change the lives of every human being on our planet.

When we are at play, utilizing the CHD model (a representation of the human body and its dynamics), we free our spirits from the amoral aspects of social and societal conditioning (Street Influence), and automatically matriculate to higher levels of spiritual consciousness – we wake up to the truth.

At the spiritual consciousness level, we become one with God and restore our spiritual selves to wholeness (Therapy Confluence) as measured by the Performance Appraisal Indicator (PAI) – Your Blueprint for Personal, Professional and Spiritual Empowerment “PLAY” Book © 1999.

I discovered these truths during my research study for my dissertation titled, “The Influence of Spiritual Leadership Dynamics on Organizational Performance – a Values-based Phenomenon.” What I discovered was the existence of God and that every human being possesses a portion of God’s power.

My dissertation aspiration for advancing the evolution of human potential in every aspect of our lives is the power of God. The only model that I deemed worthy for this dissertation was one that represented the human body and its dynamics – the CHD model.

The human body is one of the most reliable test labs known to science and it can be authenticated as the ideal model for sophisticated scientific research. I am the only scholar who configured a model that represents the human body and its dynamics. This model serves as the gap, in my dissertation, that science and technology have refused to tap.

This discovery of the CHD model led to the confirmation and unmitigated evidence, during my study over the course of 30 years, that God exists in all human beings. Further, God's presence can be easily ascertained by putting the CHD model into play according to the research design.

For the first time in our lives, we will experience an epiphany and a spiritual connection with God Almighty when we play the game in God's name. We will continue to experience these epiphanies as long as we align our personal and professional values systems with our true nature – the power of God – as measured by the PAI.

These experiences will not only be spiritual, they will touch us in ways never before imagined. We will forever enjoy an everyday measure of un-adult-erated pleasure. Our life, business, health and happiness will gain added value to the tune of unlimited wealth, perfect health and the re-creation of our spiritual self.

To become a part of this PLAY Revolution and to help empower the rest of the world population by sharing this incredible discovery with others, please contact me using the information listed below.

Thank you for your time, and please pass this discovery on to others who may be interested in joining this PLAY Revolution and reconnecting with our true nature housed within the CHD model – the power of God.

Playfully yours,

Oliver Rhodes, M.S. CHD, USN Retired
Certified Playologist, Speaker, Author
